*Due to extreme competition at both the freshmen and transfer level, with no guarantee of transferability, STCC has discontinued this option. However, Students interested in Pre-Pharmacy can complete most of the courses required in the first two years of a pharmacy program by enrolling in the Pre-Med or Biology option.
**Most Pharmacy schools require ECN-101, Economics 1; HIS-100, Survey of Early Western Civilization; and HIS-101, Survey of Modern Western Civilization, for social science/humanities electives. ***Check the curriculum of the school you plan to attend to determine what this elective should be.
