

Springfield Technical Community College

School of Health & Patient Simulation

Department of Nursing

Withdrawal from Nursing Courses

If a student chooses to withdraw from school, they must fill out a college withdrawal form available in the Registrar's Office or online. The student must indicate the last date of attendance on the form. This is the date the financial aid refund calculation is based on. Students are responsible for delivering the signed withdrawal forms to the Registrar's office before the official withdrawal date (The date varies by semester; see academic calendar under quick links on the STCC website). The student will receive a W on their transcript.
